GENERAL RULES

10. Meter Reading and Billing - Continued

10.5 Billing of Changes in Rates and Proration of Monthly Rates and Charges

Unless otherwise specified under this Rate Schedule, the following provisions will apply to billing of changes in rates and proration of monthly rates and charges:

10.5.1 Rates and charges shall apply to service rendered on and after the effective date of those rates and charges. The rates and charges will be prorated when there is a change in rates and charges on the basis of the number of days of service rendered before the effective date and on and after the effective date related to the total number of days in the billing period.

10.5.2 Monthly rates and charges will be prorated when the Company renders a bill for other than a 30-day period on the basis of the number of elapsed days divided by 30; except that:

(i) a Customer who terminates service less than 30 days after the commencement of service will be billed for 30 days;
(ii) rates and charges assessed per bill or per calendar month will not be prorated; and
(iii) rates and charges assessed per kWhr will not be prorated.

Where Energy Delivery Charges are subject to kWhr rate blocks, usage within the first and each succeeding rate block will be prorated on the basis of the number of elapsed days divided by 30 before any remaining usage is allocated to the succeeding rate block(s).

Rates and charges assessed per kW will be prorated for 30 days; provided, however, that where there are kW rate blocks, the Demand Delivery Charges will be totaled and then prorated on the basis of the number of elapsed days divided by 30.

10.5.3 As-Used Daily Demand Delivery Charges under Standby Service rates are not subject to proration.

24. Service Classification Riders (Available on Request) - Continued

RIDER Z – SC 1 INNOVATIVE PRICING PILOT

Applicable to SC 1
(Subject to the provisions thereof)

A. Applicability

This Rider provides the rates for SC 1 Customers who are participants in the Innovative Pricing Pilot (the "Pilot"), Customers that were not selected for the Pilot and choose to take service under this Rider, and Customers that participate in the Pilot and continue to take service under this Rider beyond their term of Pilot participation.

This Rider is available on both an opt-in and opt-out basis to Full Service and Retail Access Customers taking service under SC 1, except for Rate IV of this Rider, which is not applicable to Retail Access Customers. Customers who were not selected for the Pilot and wish to take service under this Rider will be assigned to Rate I of this Rider.

B. Enrollment

Customers will be enrolled in the Pilot using both opt-in and opt-out enrollment methods as described below.

1. Opt-in Enrollment

   Customers chosen by the Company for opt-in enrollment in the Pilot will be solicited for their participation. Customers responding affirmatively that they wish to participate in the Pilot will be enrolled.

2. Opt-out Enrollment

   Customers chosen by the Company for opt-out enrollment in the Pilot will be informed of their selection for the Pilot and instructed to respond to the Company if they do not wish to participate (opt-out). Methods through which Customers may elect to opt-out include, but are not limited to, notifications by phone, by mail or electronically through the Company's website. Under opt-out enrollment, a non-response constitutes enrollment in the Pilot.

Customers served under this Rider may elect at any time to leave the Pilot and transfer to their previously applicable SC 1 rate effective with the next billing cycle commencing after such election is made. However, such Customers will thereafter be ineligible to take service under this Rider for one and one-half years.

GENERAL RULES

24. Service Classification Riders (Available on Request) - Continued

RIDER Z – SC 1 INNOVATIVE PRICING PILOT - Continued

C. Term of Service

Service under this Rider will commence with the Customer's first bill having a "from" date on or after their enrollment in the Pilot. Customers recruited for the Pilot will take service under their assigned Pilot rate for approximately two years unless they opt-out of the Pilot or elect to continue to be billed under the rates contained in this Rider beyond the conclusion of the Pilot.

Customers enrolled in the Company's Low Income Program, as described in Rider S, or CONCERN program, who are initially enrolled in the Pilot in October 2020 and beyond, will automatically be retained on their assigned Pilot rate at the conclusion of the Pilot if their average monthly bill savings over their second 12-months of enrollment (as compared to SC 1 Rate I) equal or exceed $15 per month. Should such a Customer prefer to return to their prior rate at the end of the Pilot period, they may do so upon request. Customers that actively elect to continue to be billed on the rates beyond the Pilot term, or are automatically retained on their Pilot rate at the end of the Pilot term, will no longer be considered to be participating in the Pilot.

D. Metering

Any Customer taking service under this Rider must have an AMI meter and the applicable Company communications equipment must be operational. If a Customer wishing to take service under this Rider does not have an AMI meter, the Company, at its discretion, may provide such service if operational communications equipment is available. The Customer may be required to reimburse the Company for any incremental costs associated with providing such service. Customers taking service under this Rider will not be able to participate in the AMR/AMI Meter Opt-out as described in General Rule 6.10.

E. Billing

In addition to the rates, charges and terms and conditions of service specified hereunder, Customers served under this Rider are subject to all other rates, charges and terms and conditions of service under SC 1 except as specified hereunder.

F. Holidays

For the purposes of this Rider, days classified as holidays include New Year's Day (January 1), Memorial Day (the last Monday in May), Independence Day (July 4), Labor Day (the first Monday in September), Thanksgiving Day (the fourth Thursday in November), and Christmas Day (December 25).

Common Provisions Applicable to all Rates

Supply Charges

Full Service Customers are subject to the supply and supply-related charges and adjustments specified in General Rule 25. Retail Access Customers are not subject to General Rule 25.

Increase in Rates and Charges

The rates and charges under this Rider are increased by the applicable percentage as explained in General Rule 30 and shown on the related Statement.

Price Guarantee

A price guarantee will be provided to all participants in the Pilot for the first twelve months of their participation. Under this price guarantee, the Customer will receive a credit following the first twelve-month period of their participation in the Pilot for the difference, if any, between what the Customer paid in excess of what the Customer would have paid under SC 1 Rate I However, Customers participating in the Pilot enrolled in the Company's Low Income Program, as described in Rider S, or CONCERN program, will receive such price guarantee for the entire term of their participation in the Pilot on a quarterly basis, and after the conclusion of the term of each Customer's participation in the Pilot. The comparison (inclusive of the Increase in Rates and Charges) will be made on a total bill basis for Full Service Customers and on a delivery-only basis for Retail Access Customers. Customers that leave the Pilot prior to the conclusion of the first twelve-month period of the Pilot will receive a credit, if applicable, based on the period during which they took service under the Pilot rates. Customers enrolled in the Company's Low Income Program or CONCERN program and eligible for the price guarantee who choose to leave the Pilot prior to the conclusion of the applicable term of the Pilot will receive a credit, if applicable, based on the period during which they took service under the Pilot rates. Customers, including those enrolled in the Company's Low Income Program or CONCERN program, who were not selected or solicited for the Pilot but elect to take service under this Rider will not receive the price guarantee.

Common Provisions Applicable to Rate I, Rate II, Rate III, Rate IV, and Rate VII

Billable Demand

For each day in a billing cycle, the maximum daily demand shall be calculated for each time period applicable to that day. The Billable Demands shall be determined by calculating the average of the three highest maximum daily demands occurring in each time period for the applicable billing period. All maximum daily demand values shall be established by calculating the highest integrated 60-minute demand ending in each day and being entirely comprised of intervals ending in the same time period (on-peak, off-peak, all-hours).

GENERAL RULES

25. Supply and Supply-related Charges and Adjustments - Continued

25.1 Market Supply Charge – Continued

(b) – Continued

The MSC per-kilowatthour rate for each Customer in an energy-only rate class, which for this purpose includes Customers taking service under Rider Z, Rider AA, and Rate IV of SC 1 will be the sum of components (1) through (5) in (a) above, that is, the cost of energy and capacity based on NYISO market prices plus the Ancillary Services Charges, NTAC, and NYISO Transmission Charges. Energy-only SC 12 Customers subject to the Minimum Charge are assessed the MSC per-kilowatthour rate based on the minimum kWhr billed. For accounts billed under: Rate II of SC 1 or SC 2; Rate III of SC 1; Rate IV of Rider Z; or Rate IV of SC 1, component (1) in (a) above, that is, the cost of energy, will be the cost of energy based on a forecast of NYISO market prices and an estimate of the associated Hedging Impact, load-weighted by the applicable rate class's hourly load shape (as described in General Rule 25.1(b)) for the applicable time-of-day periods, and adjusted using the Factor of Adjustment for Losses. For accounts billed under Rate II of SC 1 or SC 2, component (2) in (a) above, that is, the cost of capacity, is only assessed for usage during the "on peak" period. For accounts billed under Rate III of SC 1, component (2) in (a) above is only assessed during the Summer Billing Period, weekdays, 2 PM to 6 PM. For accounts billed under Rate IV of Rider Z and Rate IV of SC 1, the cost of capacity is assessed only for usage during the "on peak" period.

For Customers billed under Rate I of Rider AB, the cost of capacity is recovered through Critical Peak Generation Capacity Event Charges, on a per kW basis.

The MSC per-kilowatthour rate for each Customer in a demand-billed rate class will be the sum of components (1), (3), (4), and (5) in (a) above. For demand-billed rate classes, component (2) in (a) above, that is, capacity costs, will be billed as a separate per-kilowatt MSC rate. Except as described below, the cost of capacity is billed to Customers in demand-billed rate classes per kW of registered demand. Capacity costs are only assessed for demand registered weekdays, 8 AM to 6 PM, during the Summer Billing Period and weekdays, 8 AM to 10 PM, during the Winter Billing Period for accounts billed under SC 13, Rate II or IV of SC 5, or Rate II, III, or V of SC 8, 9, or 12. Exceptions are as follows:

(1) Non-Rider M demand-billed Customers subject to the Minimum Charge are assessed the MSC per-kilowatt rate based on the minimum kW billed.
(2) Rider M Customers are assessed the MSC per-kilowatt rate based on their ICAP Tag, commencing with bills having a "from" date on or after June 1, 2016. Each Customer's ICAP Tag, expressed in kW, is set annually, each May 1, based on that Customer's load during the ICAP Market Peak Hour from the prior calendar year, reconciled to the Company's share of the NYCA peak load, and adjusted for the upcoming year's forecasted peak load. In the event the Company does not have an accurate or sufficient load history for the Customer's account, the ICAP tag will be based on the Company's estimate.

Common Provisions Applicable to Rate I, Rate II, and Rate III

Customer Meter Reading

A residential Customer billed on these rates may read the meter on June 1 and September 30 and provide the reading to the Company for the preparation of an actual, rather than a prorated bill. The Customer's reading must be received by the Company not later than the next scheduled meter reading date as shown on the bill.

Common Provisions Applicable to Rate IV

Billable Demand

For each day in a billing cycle, the maximum daily demand shall be calculated for each time period applicable to that day. The Billable Demands shall be determined by calculating the average of the three highest maximum daily demands occurring in each time period for the applicable billing period. All maximum daily demand values shall be established by calculating the highest integrated 60-minute demand ending in each day and being entirely comprised of intervals ending in the same time period (on-peak, off-peak).

Holidays

For the purposes of this Rate, days classified as holidays include New Year's Day (January 1), Memorial Day (the last Monday in May), Independence Day (July 4), Labor Day (the first Monday in September), Thanksgiving Day (the fourth Thursday in November), and Christmas Day (December 25).

Metering

Any Customer taking service under this Rate must have an AMI meter and the applicable Company communications equipment must be operational. If a Customer wishing to take service under this Rate does not have an AMI meter, the Company, at its discretion, may provide such service if operational communications equipment is available. The Customer may be required to reimburse the Company for any incremental costs associated with providing such service. Customers taking service under this Rate will not be able to participate in the AMR/AMI Meter Opt-out as described in General Rule 6.10.
